VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1928 Rolls Royce 20hp Tourer.

Chassis number GTM12

Registration number: WW8028

A really beautiful tourer in the manner of a Barker Barrel sided tourer executed by Beaumont. The body lines have been superbly crafted & catch the Barker look perfectly.

The car is finished in white. with the bonnet being of polished aluminum. To the interior is buttoned burgundy leather to the front & rear all in perfect condition. The leather extends also to the door cards with burgundy carpet to the floor. The beige hood is also in excellent condition. but the weather was so fine on the day of photography that we simply couldn't bring ourselves to put it up. Sorry. Come & see it for yourselves. A full set of side screens is stowed in the rear of the front seats in a special compartment.

The engine bay is clean & tidy with an engine that starts instantly & runs in absolute silence; indeed it is one of the quietest I have handled. Much work has clearly been done on it in the not too distant past. Gear changes likewise are smooth & seamless with changes easily mastered. A klaxon is mounted off the bulkhead. A single side mount sits to the passenger side & a lovely wicker basket to the drivers side running board. Both a starting handle & a wheel spanner are present.

The car is in well above average mechanical condition & ready for immediate extended use.
