VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

Vintage and Prestige are proud to offer this 1932 Rolls-Royce Phantom II Continental Drophead Coupe by Carlton For Sale.

Previous UK Registration: 544 YUS

Chassis no: 32MS

Engine no: HD 55

Mileage shown: 22,480

32MS was first ordered by Sir George Granville Sutherland-Leveson-Gower who was the largest UK landowner ever with 1,358,600 acres. She changed ownership twice until being purchased by Henry Wilkins in 1957.

Mr Wilkins took it upon himself to have the body modified by coachbuilders F.L.M of London with a view to "to make it handy and more convenient to drive" The original 4 door Carlton convertible was

enhanced from the rear of the front doors back to produce a beautiful swept back Coupe.

After a move to America the rear curvature was carefully improved again, the spare wheel was moved to the rear in Continental style and the luggage space increased, the end result is a truly astonishing body; the long louvered bonnet and skuttle are iconic and as the lines continue towards the rear they sweep perfectly with the wings matching the curvature.

This Continental is one of 280 produced however the body is certainly one of a kind and a truly rakish design. The paintwork is finished in a soft shade of grey, the paintwork is in good condition all over. The top bodyline is finished in black with 2 fine and separately coloured coachlines which continue all around the car.

The Boot space is more than adequate, there is plenty of room for all the spares needed on a long distance rally, and even some space for shopping!

The light tan interior is to true Rolls-Royce quality and begin to show some beautiful patina, the seats are fluted and there are pockets to the door cards and behind the seats, simply fold the seats forward and there is another large storage space.

One person takes up and down the hood easily and being a coupe the car still looks magnificent with the roof up; the rear centre section also comes down, allowing for a gentle breeze or a better view.

The head and spot lamps are of the finest quality (Stephen Grebel) and like up the night road in style. The wooden dashboard and cappings are veneered to a faultless standard, even the black enamelling around the gauges is to a concours standard.

The beautifully engineered 7,668 cc engine has an endless amount of torque and runs effortlessly, you are forever the blipping the throttle just to check as the engine runs silently. The coachwork is glamorous, but the engine is a true masterpiece that you feel honoured to be in charge of.

In our showroom and ready for viewing.
