VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1960 Bentley S2 4 door Standard Steel Saloon

Chassis number: B190BS

Registration number: VNR800

Subject of a Nut & Bolt body off restoration; this car has a photographic file detailing the extensive works undertaken to it. Since then it has covered just a few hundred shake down miles.

The car is finished in traditional Tudor over Shell Grey with the paint being flawless.

The chassis had the same level of detail attended to it whilst the body was off being restored to as new. The interior hides were in fine condition so pleasingly were retained having been recoloured & retained making the cabin a pleasant place to be.

A fully nut & bolt restored car like this makes a lovely every day driver or a cherished classic to be used on high days & holidays. This example is as fine as any we have had & is not expensive considering the massive works undertaken upon it. The vast sums spent in bringing it up to this standard.

Cars like this speak for themselves. Need we say more?
