Pristine condition & full service history with no less than 13 main dealer stamps in the service book. This is one of the second generation cars that were a quantum leap over the first generation ones in terms of quality. A scant 24,653 Miles from new have been covered at time of writing backed up by the comprehensive service history.

The car is finished in a Deep Grey/Blue colour with the paint being flawless having been always garaged from new. To the interior is parchment leather again in lovely order along with light burr veneers to the dash board & door tops. Polished Chrome wheels complete the look along with a black mohair hood that glides up & down at the touch of a button.

Perfection needs but few words & if you seek it, you have found it in this car. It is of a quality where viewings are not really necessary & we can deliver it anywhere in the world.
