Price: SOLD

VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1949 Land Rover Series 1 SWB with Hard top

Chassis Number: R8664812

Registration Number: GGG475

A very early and fully restored Landrover sries one. This car was restored some years ago for a prominent scottich motor museum & has ever since been on display there with occasioanl outings to shows & for publicity purposes.

The car is needless to say in really really fine order throughout. The pale green paint is perfect as the seats which were recovered during the restoration. The car starts intantly & runs as one would expect from the fully rebuilt engine.

The car is equipped with a removeable hard top as oppised to the canvas top option. A valet had not been perfomred due to time issues on the day we photographed it so the engine bay was dusty & not displaying to its full potential, but this will of course be done prior to the sale concluding.

The car is fitted with brand new tyres all round mounted to pressed steel wheels.
The car from the underside is as good as it is on top. This is overall a really really fine example & may be viewed near Inverness by prior appointment.
