Price: £70,000

VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1904 Dedion Bouton Type Y 6hp

Chassis Number: 135

RegistrationNumber: BS8759

Coming to us from previous South African ownership with paperwork dating back as far as 1946.

This little Dedion is of the Y type which finished production in 1904. It has run the last two London to Brighton events on a temporary passport & is in the process of being officially dated but being of the Y type it is for sure of no later than 1904 origin. The engine number is 16824 with a number of VCC dated Dedions of 1904 origin with higher engine numbers such as 17881.

The car fires up & runs well. It has currently having a full service & tune up at a specialist.

This is a great entry level London to Brighton contender with 3 forward speeds & starts easily on the starting handle. Driving it is easily mastered & it pops along very well indeed.

The Dedion comes also with South African papers but is UK road registered & UK import taxes paid. Paintwork is good in a jaunty shade of green along with yellow wheels. Currently a two seater it would not be difficult to add a rear tonneau seating area to make it a 4 seater.
