VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

Alfa Romeo 8c Monza Tool Room Reconstruction.

Chassis Number: PS24110

Registration Number: Upon request for qualified buyers.

PLEASE WATCH THE YOU TUBE VIDEO OF JAY LENO DRIVING IT

This Alfa Romeo was first ordered & purchased by noted collector Jay Leno. Please see You Tube link for a film done at his California garage when the car first arrived with him. Since then under his ownership & the current deceased estate ownership the car has covered a scant 3300 miles from new.

The engine is a 2.6 litre straight eight supercharged unit & is an amazing work of art both to listen to & to drive. This is a properly fast car & simply a hoot to drive only really making sense when being pushed hard.

The car is in stock with us not at our showroom. It is in superb order with light patination to the leather & gets the thumbs up wherever you drive or park it. The car has plenty of room for taller chaps like myself & is an easy car to drive with a

lovely intuitive gear box. Having been runniing round two weeks ago in an original 8c Monza & I can say hand on heart that there was no definable difference between the two otehr then the price being 10 times higher on the original.

In addition to the UK V5c Document the Alfa also has American registration Paperwork.
