VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1951 Bentley Racing Green Engineering Alpine Special

Chassis Number: B36311

Registration Number: CCP374

As new condition with just a few thousand miles covered since build by Racing green Engineering. This Alpine special model is fitted with the straight eight quadruple carb B81 engine providing superb performance from its 6.5 Litres capacity.

The car is finished in dark midnight blue along with a deep maroon leather interior.

The front of the car is adorned with the usual chrome mesh covered lights & chrome Bentley radiator. The hood goes easily up & down & there is a tonneau cover that snaps into place over the cockpit giving some measure of security when the car is left unattended for brief periods of time. A useful luggage rack is installed to the rear. The car sits on knock off hub chrome wire wheels shod with recent Blockley tyres all round.

Not much more need to be said about it as perfection needs but few words. It is available after june when it is to be used for a family event.
