VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

1930 LAGONDA 2L LOW CHASSIS - T7 Body

Chasis Number: OH9712

Registration: Germany. Original UK plate was OH8844

During a portion of its lifetime, particularly in 1965, the car remained tucked away in a barn for an astonishing 25 years. It wasn't until the early 90's that it emerged from its North Yorkshire barn, remarkably well preserved. This is believed to be the only original T7 bodied 2 Litre Lagonda ever produced.

This remarkably well preserved vehicle has received significant attention. In 2019, its body underwent meticulous repainting, making it one of the most visually appealing 2 Litres on the market. In 2021, the engine underwent a complete overhaul, including an HCS engine conversion, increasing its capacity to a solid 2.4 liters and doubling the power of the original engine. The gearbox, differential and brakes were also comprehensively addressed.

To bring the car to its current state of excellence, skilled craftsmen crafted and fitted new upholstery. A new roof and tonneau cover were installed as part of the restoration process, ensuring that this Lagonda 2 Litre shines as a true automotive gem.

The car comes with a comprehensive record of all owners, spanning from its inception to the present day. The vehicle boasts a meticulously documented history which includes club records, buff log books, period photographs, letters and more.

Currently on German Plates the car is EEC Taxes paid & ready for immediate use. Viewings are by appointment in Antwerp Belgium.
