CONTINENTAL FLYING SPUR MULLINER SPEED.

Year: 2010

Chassis no: SCBBF53WOAC065499

Registration: LJ10CEA

Price: £26,000

VEHICLE DETAILS

ADDITIONAL INFORMATION / SERVICE HISTORY

2010 Bentley Continental Flying Spur Mulliner Speed.

Registration Number: LJ10CEA

Vin Number: SCBBF53WOAC065499

Finished in unmarked pristine meteor blue metallic exterior paintwork with Portland main hides & imperial blue secondary leather. This is a high spec car with all sorts of cost options ordered when the car was new. Please see the build sheet list in the photo gallery.

A top of the line Speed version, with the 600bhp engine, sufficient for a claimed 0–60mph time of 4.5 seconds and a maximum speed of 200mph. A lower stance and subtle styling changes distinguish the model, while its name recalls the sporting Bentleys that had established the Speed tradition during the 1920s.

Those figures remain impressive, but the Flying Spur’s attraction lies as much in the manner of its performance as the numbers themselves. The automatic transmission and all-wheel-drive layout complement the engine’s considerable reserves, creating a grand tourer capable of covering long distances with little apparent effort, enhanced by adding the versatility of four-door access and generous passenger accommodation to the familiar Bentley combination of craftsmanship and pace.

This example has covered just 29,000 miles, at the time of photography. Its low recorded mileage is a central part of its appeal, particularly for buyers seeking a car that has seen relatively limited use whilst benefiting from subsequent specialist attention.

This is a mint car in really excellent condition throughout, with particular praise for the interior trim. The specification includes a Naim in-car entertainment system, an appealing accompaniment to the cabin’s emphasis on comfort and refinement, offering a suitably luxurious environment for driver and passengers alike on longer journeys.

Of particular significance is the servicing and maintenance programme undertaken in 2023 by Alan Fearon, Rolls-Royce and Bentley specialists. The car has recent expenditure of approximately £12,000, with only around 3,000 miles covered since. The supplied notes describe a comprehensive approach to the work with eveythign needing doing having been done.

Supporting paperwork includes a service book displaying nine stamps, previous MOT Certificates, invoices and assorted records. The history folder also contains the car’s user manuals and associated literature, providing useful material for the next owner. Three keys and a locking wheel nut key accompany the Bentley.

For an enthusiast seeking the performance of the Speed derivative within Bentley’s four-door Continental range, this example offers an attractive combination of low indicated mileage, desirable audio equipment and recent specialist expenditure. Its appeal extends from relaxed touring to more enthusiastic driving, with the cabin comfort expected of the marque throughout.
